RE:LETTER OF COMPLAIN ON COMPUTATION OF MY MSC. ED. RESULT.

Reference to your letter dated 20th December, 2024 titled "LETTER OF COMPLAIN ON COMPUTATION OF MY MSC. ED. RESULT".

Having gone through your letter and attached document, the Department appointed a four men committee to look into your complaint, recomputed the result and write a report about its findings.

The report of the committee showed that all your recomputed scores are in tandem with the content of the transcript you attached to your letter except your score in Graduate Seminar, in which **61%** was displayed in the transcript as against your original score of **51%** in the department's record.

The committee recomputed your results based on its findings of the incorrect score of **61%** displayed in your transcript for Graduate Seminar, and therefore used your original score of **51%** for the Graduate Seminar which indicated a drop in your average score. The committee advised the department to invite you physically for the verification and recompilation of your result in prove of your complaint.

The department unanimously agreed that you, Mr Amupitan Shogo should make yourself available for the recalculation and recompilation of your result in prove of your complaint that your result was wrongly computed.

Thanks
